**Table of Contents:**

Executive Summary .....7

Introduction .....8

SECTION I: Meeting China’s Energy Challenges with Renewable Energy .....9

    The Renewable Energy Law and Energy Resources and Security .....11

    The Renewable Energy Law and Environmental Challenges .....13

    The Renewable Energy Law and Rural Development .....14

SECTION II: The Renewable Energy Law and the Chinese Legislative Process.....16

SECTION III: Analysis of Specific Legislation in the Renewable Energy Law .....17

    Renewable Energy Legislation Aimed at Detailed Planning .....17

    Renewable Energy Legislation Aimed at Reinforcing the Development of Renewables ...21

SECTION IV: The Renewable Energy Law & Wind Energy Markets in China.....29

    China and the Global Wind Power Industry.....29

    Geography of China’s Wind Energy Resource.....31

    Wind Project Development .....32

    Main Previous Policies Affecting Grid-Connected Wind Power Projects .....36

    Wind Project Development and the Renewable Energy Law.....37

    Wind Turbine Manufacturing .....38

    Market Shares for Turbine Installations.....39

    Estimated Future Wind Energy Market Outlook .....40

Section V: The Renewable Energy Law & Solar Markets in China .....42

    China and the Global Solar Power Industry .....42

    Geography of China’s Solar Energy Resource .....42

    Solar PV Project Development .....43

    The Chinese Market for Solar PV .....44

    PV Manufacturing and Investment .....45

    Estimated Future Solar PV Market Outlook.....47

    Solar Thermal .....47

Section VI: The Renewable Energy Law & Other RE Technologies in China.....49

    Small Hydro and the Renewable Energy Law .....49

    Biomass Industries and the Renewable Energy Law .....49

    China’s Biomass Resources and Markets.....50

    Manufacturing Biomass to Energy Equipment .....50

    Bio-Fuels and the Renewable Energy Law .....51

Appendix A: RE Law Text - Chinese .....53

Appendix B: RE Law Text - English .....61
